**Drying Time**  
1 to 4 hours

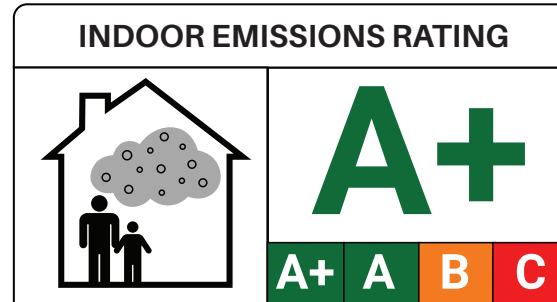

**Application Temperature**  
Between 5°C and 35°C

**When Can It Be Painted?**  
After it is fully dry.

**Density**  
1.4 kg/m<sup>3</sup>

## APPLICATION

- Ideal for filling and repairing holes and gaps on wooden surfaces.
- Provides long-lasting repair solutions for outdoor wooden structures such as pergolas, fences, and decks.
- Safely restores deformations on wooden doors, window frames, baseboards, and floorboards.
- Perfect for filling and repairing tasks that require durability in furniture manufacturing and restoration.
- Helps structurally reinforce decayed or damaged wood surfaces. Allows screw or hinge areas to be reused.
- Prepares a smooth, sandable and paintable surface, making it ready for final finishing applications.

## SPECIFICATIONS

- Fills gaps up to 5 mm.
- Reinforced with fiberglass; resists wood movement up to 20 mm.
- Resistant to shrinkage.
- Solvent-free.
- Compatible with most wood paints and varnishes.
- Available in a wide range of colors.
