## ACRYLIC DOUBLE-SIDED TAPE

### Important Usage Notes

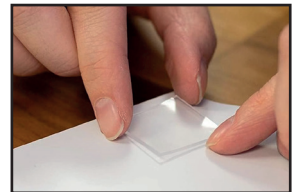

- Touching the adhesive surface by hand or reapplying it may weaken the bonding strength or cause deformation.
- Do not use on wallpaper, painted surfaces, resin-based surfaces, etc.
- Not suitable for valuable or fragile items.
- Use with caution on heavy objects.
- There may be a risk of peeling or surface damage.
- Avoid use in situations where the adhesive cannot support the object.
- Temperature range: -20°C to 80°C.
- Test the material on a small surface before use.
- Do not store in areas exposed to direct sunlight or high temperatures.
- Store in a cool and dry place.

### APPLICATION AREAS

WOOD, GLASS, TILES, METAL, CERAMIC
